

PRASATH R U

Junior Software Developer

+91 9345548421 | prasathru14@gmail.com

SUMMARY

Junior Software Developer with 2 years of experience building scalable web applications using React.js, Next.js, Node.js, and MongoDB. Experienced in developing real-time dashboards, REST APIs, and performance-optimized frontend architectures. Strong focus on clean code, reusable components, and delivering user-centric solutions.

WORK EXPERIENCE

Junior Software Developer — Redisolve Software Pvt Ltd

July 2025 - Present

- Engineered a full-scale HRMS managing the end-to-end employee lifecycle from onboarding to offboarding, including attendance, leave, payroll (payslip), week-off, and performance management.
- Designed and implemented a real-time Attendance Dashboard integrating biometric data and multiple databases (MongoDB, MSSQL), reducing manual tracking efforts by ~40%
- Built NewsHarvest, a news aggregation platform with automated scraping pipelines and real-time content updates, improving content accessibility and supporting dynamic category-based filtering for better user engagement
- Optimized frontend performance by implementing TanStack Query, reducing redundant API calls by ~30% and significantly improving application responsiveness
- Developing and maintaining the Redisolve website using Next.js, focusing on scalable architecture, reusable components, and responsive UI design

Trainee Developer — Hema’s Enterprises Pvt Ltd

Jun 2024 – Feb 2025

- Developed frontend for multiple applications using React.js with reusable component architecture
- Built dynamic web applications including e-commerce and real estate platforms with responsive UI
- Integrated REST APIs using Axios, improving data loading efficiency
- Developed reusable UI components that improved frontend development efficiency by 30%
- Improved UX across projects by implementing dynamic routing and responsive layouts

Front-End Developer — Indiaproduced.com

Sep 2023 – Feb 2024

- Maintained and optimized Shopify e-commerce websites ensuring high performance and reliability
- Developed AG Property & Facility, a real estate web platform using React.js
- Performed regular site enhancements that reduced page load time by ~20%

PROJECTS

Personal Portfolio – MERN Stack

- Built a dynamic personal portfolio website using the MERN stack (MongoDB, Express.js, React.js, Node.js) to showcase skills, experience, and projects
- Designed a clean, fully responsive UI with smooth navigation and optimized performance across all devices

CRM Dashboard – Insurance & Loan Management | MERN Stack

- Developed a dashboard for insurance and loan management with lead tracking system
- Implemented analytics and data visualization for performance tracking
- Designed responsive UI with real-time updates

Website Development Service Platform – MERN Stack

- Built a full-stack web development service-based platform using the MERN stack (MongoDB, Express.js, React.js, Node.js) to showcase and offer web development services
- Designed a Service Listing Page highlighting available web development packages and offerings in a clean, professional layout
- Integrated a Client Inquiry & Contact Form with backend handling to capture and manage potential client requests seamlessly

SKILLS

Languages: JavaScript

Frontend: React.js, Next.js, TanStack Query, Bootstrap, Tailwind CSS, SCSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools: GitHub, GitLab, Postman, VS Code, Antigravity

Design: Figma, canva

EDUCATION

Master of Computer Applications — University of Madras (2024 – Present)

Bachelor of Computer Applications — DRBCCC Hindu College (2020 – 2023) — **82.33%**

AWARDS

One Day Hackthon Event - 1st Prize (Rs. 7000/-)

Asan Institute of Management — Feb 2023

Built a QR Code generator MVP within 10 hours

CERTIFICATIONS

The Complete 2023 Web Development Bootcamp — Udemy

ID: UC-d3cbc773-0743-4500-8934- 1897cd4960f2

Bootstrap — MindLuster

ID: 203282255
